## Seasonal Touring Caravan Rules 2008

*All persons using the site must comply with the following conditions. They are necessary in order to maintain high standards and good conditions and to assist in proper management of the park. Entry by you on to the park shall be treated as your acceptance of these conditions.*

1. The use of your caravan is limited to family only, subletting is not allowed.
2. Awnings can only be erected when you are staying in the caravan and must be taken down when you leave.
3. Disconnect your electric cable and store safely when you are not using your caravan.
4. The use of formaldehyde based chemical solutions is not allowed; an alternative biodegradable solution is available at the shop.
5. A spare set of caravan and any lock keys should be given to reception, to be retained in the case of emergency.
6. Storage boxes are available from the shop, no other storage boxes, bins or sheds are allowed.
7. Touring caravans may not be sold on the park, or display any for sale signs. The pitch is not transferable and no refunds will be offered if you vacate your pitch before the end of the season.
8. Cars must be kept to the roads except when going to your caravan and observe the 10 M.P.H. speed limit at all times. Take care when driving on the park – children are playing.
9. Do not avoid the speed ramps.
10. Although we allow as much space as possible between caravans and tents, remember that you can easily disturb your neighbours with loud music, television, or evening drinks on a still summer night. Please be considerate to your neighbours
11. If you return to the park late in the evening please remember other visitors could be sleeping.
12. Please keep your dog on a lead at all times when on the park and clear any fouling immediately.
13. When playing ball games or flying kites, please do so away from the caravans in open space and do not climb over fences to retrieve lost balls or kites. We will get them for you, if you ask.
14. Bicycles and skateboards are allowed if ridden safely, children will be stopped from using them if we feel they are becoming a nuisance to others, the constant noise of skateboard wheels can upset caravan owners near roads.
15. DO NOT skateboard before 11.00am or later than 7.00pm in the evening. Please supervise your children when skateboarding.
16. The use of motorised scooters, electric or petrol is strictly prohibited.
17. Young children should be accompanied to the toilet block and children should not be allowed to play anywhere near the toilets or laundry room.

The points mentioned are no more than common sense and are for your benefit, they do not constitute a rigid framework of rules but a set of guidelines to help you enjoy the park and to allow us to run Tyddyn Isaf in a satisfactory manner.

However if we consider anyone is abusing the park or upsetting other families staying at Tyddyn Isaf by their behaviour, we will have no hesitation in asking them to leave the park.
